Greece Signs the Artemis Accords

On February 9, 2024, Greece became the 35th country to sign the Artemis Accords. Foreign Minister Georgios Gerapetritis signed the Accords for Greece during the fifth round of the U.S.-Greece Strategic Dialogue, held in Washington, D.C. at the Department of State.

Secretary of State Antony Blinken, NASA Administrator Bill Nelson, and President of the Hellenic Space Center Dr. Ioannis Daglis spoke at the signing, welcoming Greece's commitment to the peaceful, safe and transparent exploration and use of outer space.

ARTEMIS ACCORD: PRINCIPALS FOR SUSTAINABLE CIVIL SPACE ACTIVITY

ESTABLISHMENT: The Artemis Accords were established in 2020 by the United States and seven other countries. They set out a practical set of principles to guide space exploration, affirming the Accords' principles for sustainable civil space activity.

ARTEMIS ACCORD SIGNATORS: Angola, Argentina, Australia, Bahrain, Belgium, Brazil, Bulgaria, Canada, Colombia, Czech Republic, Ecuador, France, Germany, Iceland, India, Israel, Italy, Japan, Luxembourg, Mexico, the Netherlands, New Zealand, Nigeria, Poland, the Republic of Korea, Romania, Rwanda, Saudi Arabia, Singapore, Spain, Ukraine, the United Arab Emirates, the United Kingdom, and the United States.
